

## **Raising a Money Smart Child**

[YOUR TOWN], Wis. - When was the last time you talked with your kids about money? Was it a pleasant conversation? What do you talk about the most/the least? In this interactive workshop learn how to talk to children about money issues and gain some age-appropriate strategies to help children make responsible decisions in using money.

[XXXX COUNTY] Association for Home and Community Education will present "Raising a Money Smart Child" [ADDRESS, DATE, TIME HERE].

Why is it so hard to talk about Money? In this workshop, we will explore the role of parents, and even grandparents, as a key resource in teaching financial education to their children/grandchildren. We all value money differently and understanding these values, as well as developmental stages of children, this program will help assess how to communicate more effectively about money and money issues. Communication is the key! So, we will investigate our own habits and attitudes about money and review ways parents can create conversations about financial habits and attitudes. Communication techniques for various generations will be shared as well as how to really talk about the key issue of money.

The [XXXX COUNTY] Association for Home and Community Education is affiliated with the Wisconsin Association for Home and Community Education, a non profit educational organization with members in 52 Wisconsin counties.
