

Cloverbuds Record Book

Why Record Books:

...to have a life time memory and record of what you have done in 4-H

...to establish good habits of organizing, planning, evaluating, and setting goals

Avoid the Rush:

...get started early

...take a little time each month and bring your book up-to-date

What Makes a Good Record Book:

...should be neat and clean

...you may ask your parents to help you, but the work must be your own

...take your record book to club and project meetings

...underline your own name in clippings or go over them with a highlighter marker

...items NOT to include in your record book are:

- * Fair ribbons
- * Any material not related to your project
- * Programs for events
- * Last year's records unless requested
- * Project literature

...signature and comments - make sure your record book is signed by you, your parent/guardian and club leader

...all record books must be handed in to your general

leader on time and when specified by your club's leader
